

WebSmart by JR3

Integrated Business and Student Services Web Based Software

Representing the best in Web Based processes, WebSmart by JR3 is pleased to announce the release of its interface with the Apple iPad. This handheld input-output device provides true portability and real-time information to those who require it. From teachers managing their classroom to Administrators managing their campuses, the WebSmart enabled Apple iPad gives them a “world of school information” in the palm of their hand.

Immediate and Portable access to:

Attendance
Discipline
Parent Portal
Financial/Administrative Queries
